

Update of URI documents

- **General goals**

- Move specs along standards track as possible
 - Proposed Standard => Draft, Standard
 - Informational, BCP to actual “best current practice”
- Tidy RFC series

- **Current documents**

- URI guidelines & registration process:
in IETF last call
 - draft-hansen-2717bis-... etc
- Republish/Update of scheme definitions
 - draft-hoffman-*-uri-
 - Hard cases:
 - ‘file:’, ‘ftp:’
